Before you collaborate

A little bit of preparation goes a long way with this session. Here’s what you need to do to get going.

 10 minutes

A

Team gathering

Define who should participate in the session and send an invite. Share relevant information or pre-work ahead.

B

Set the goal

Think about the problem you'll be focusing on solving in the brainstorming session.

C

Learn how to use the facilitation tools

Use the Facilitation Superpowers to run a happy and productive session.

1

Define your problem statement

What problem are you trying to solve? Frame your problem as a How Might We statement. This will be the focus of your brainstorm.

 5 minutes

PROBLEM

DETECTION OF
PARKINSON'S DISEASE

Key rules of brainstorming

To run an smooth and productive session

Stay in topic.

Encourage wild ideas.

Defer judgment.

Listen to others.

Go for volume.

If possible, be visual.

Brainstorm

Write down any ideas that come to mind that address your problem statement.

 10 minutes

Reshma

Search for appropriate datasets

Store the user information securely

Can study the data of patients and their history to find out common patterns

Provide the severity of Parkinson

Find out the symptoms

Case discussion

Praveen Raja

Factors about the disease be analysed

Focus on developing symptoms

Acquire effective result with most earliest stage of disease

Need to data mine precisely

Collect and organise the data

Analyze the patient's medical history

Rinisha

Create user friendly and appealing GUI for the users

Create user friendly and appealing GUI for the users

Examine the preexisting solutions

Avoid type II errors

Detail how to use the page

Correlate between the symptoms

Santhiya

Go through various research papers

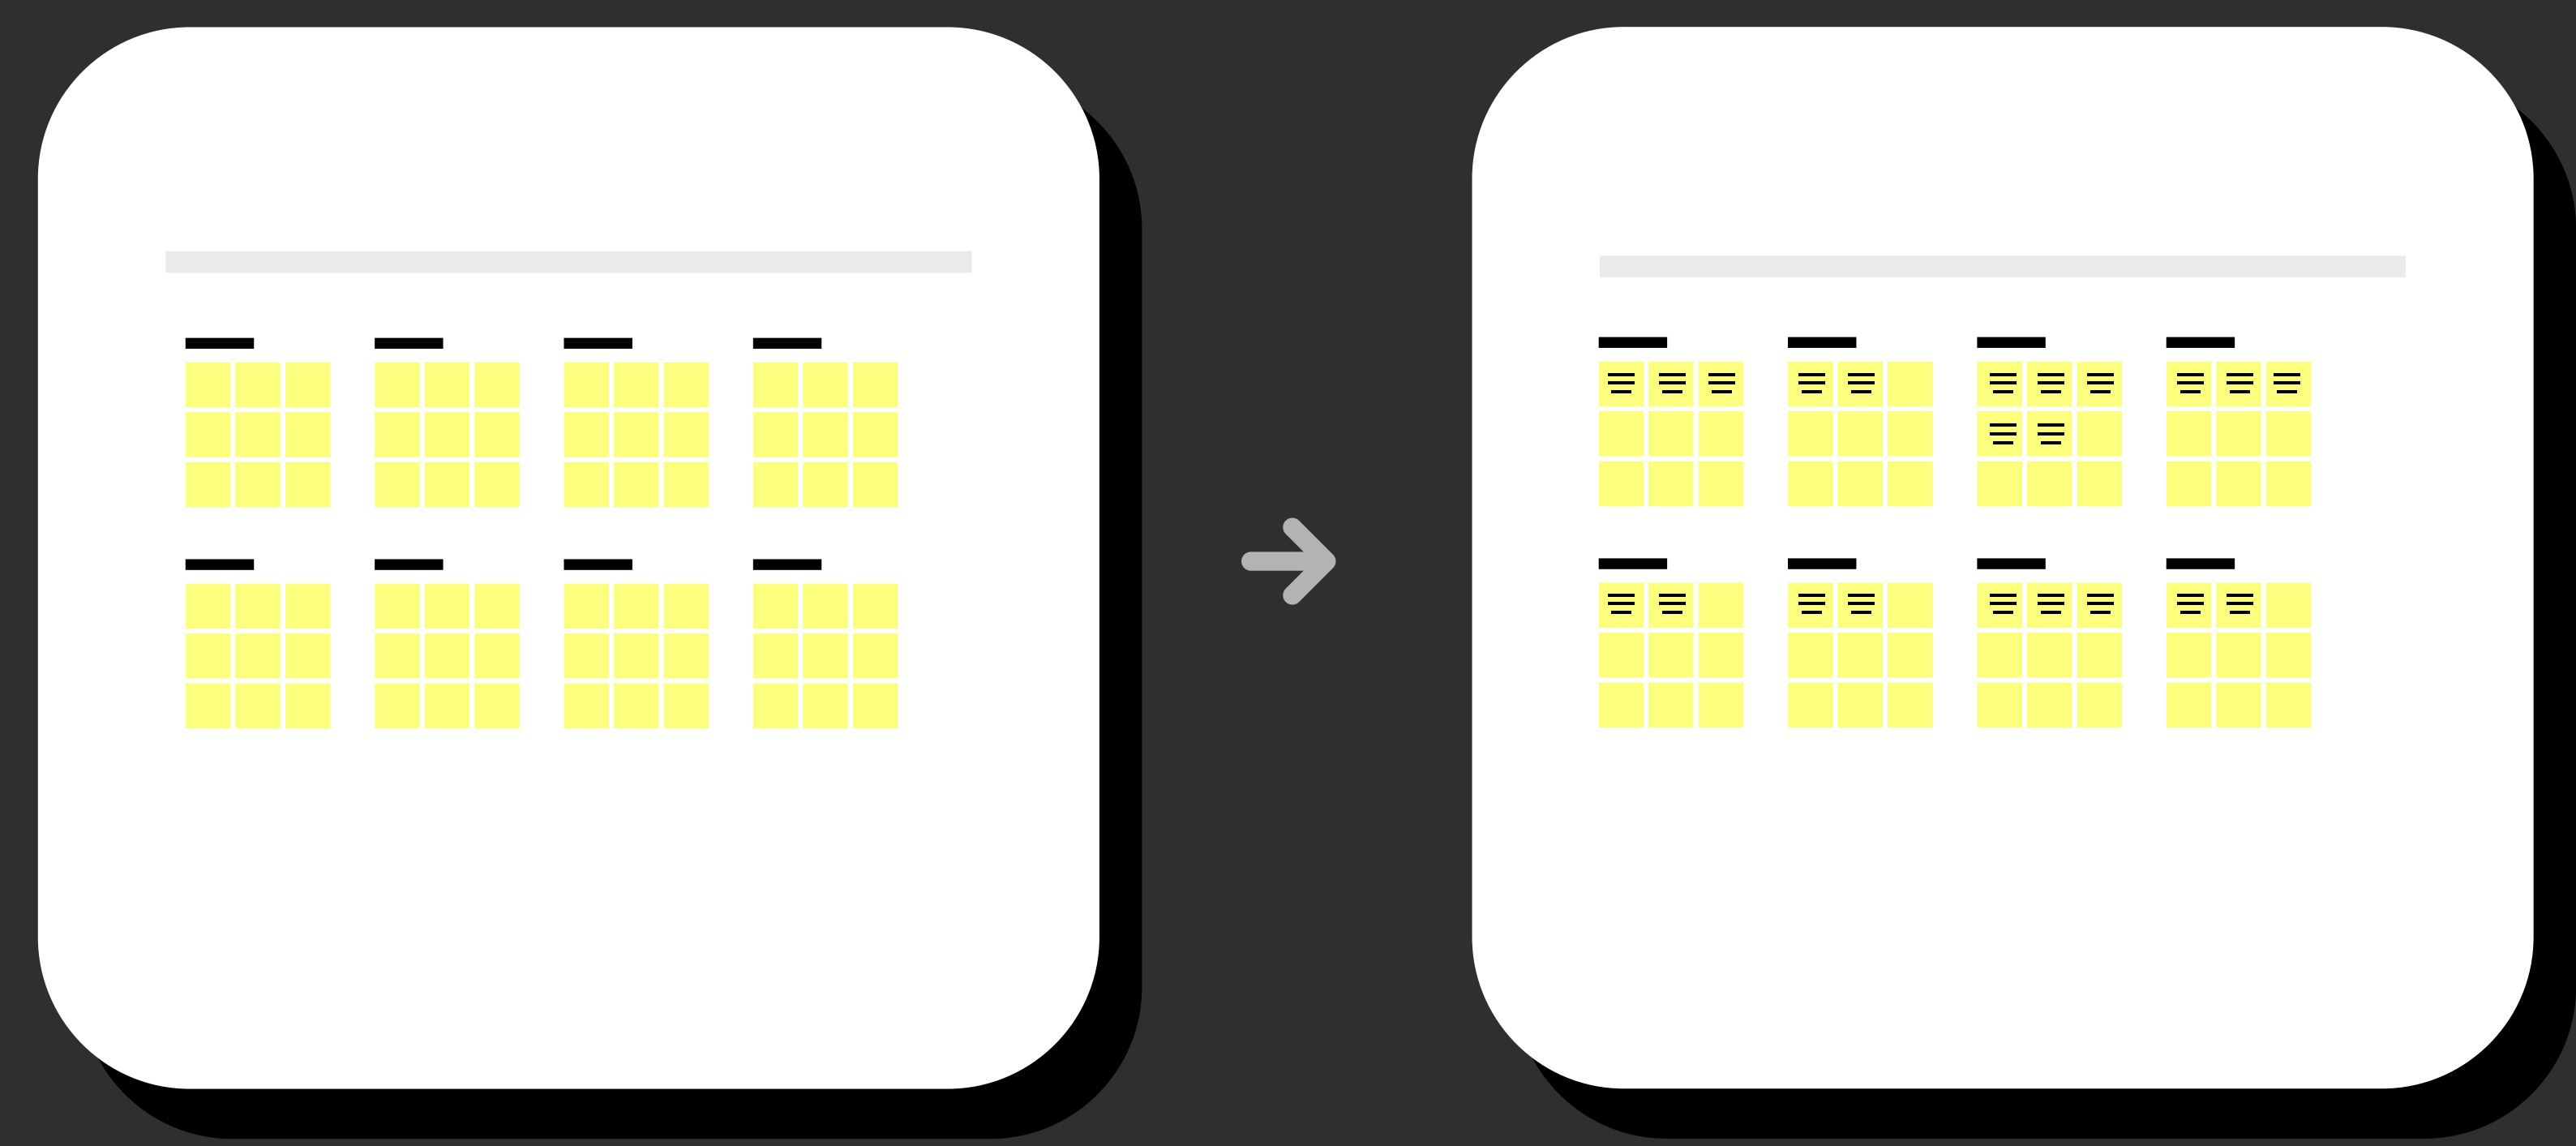

Need of accurate results

Develop a new dataset by examining existing datasets

Know the risk of disease

Information about condition that can develop into disease

Validate and authenticate user properly

Group ideas

Take turns sharing your ideas while clustering similar or related notes as you go. Once all sticky notes have been grouped, give each cluster a sentence-like label. If a cluster is bigger than six sticky notes, try and see if you can break it up into smaller sub-groups.

🕒 20 minutes

DATASET COLLECTION

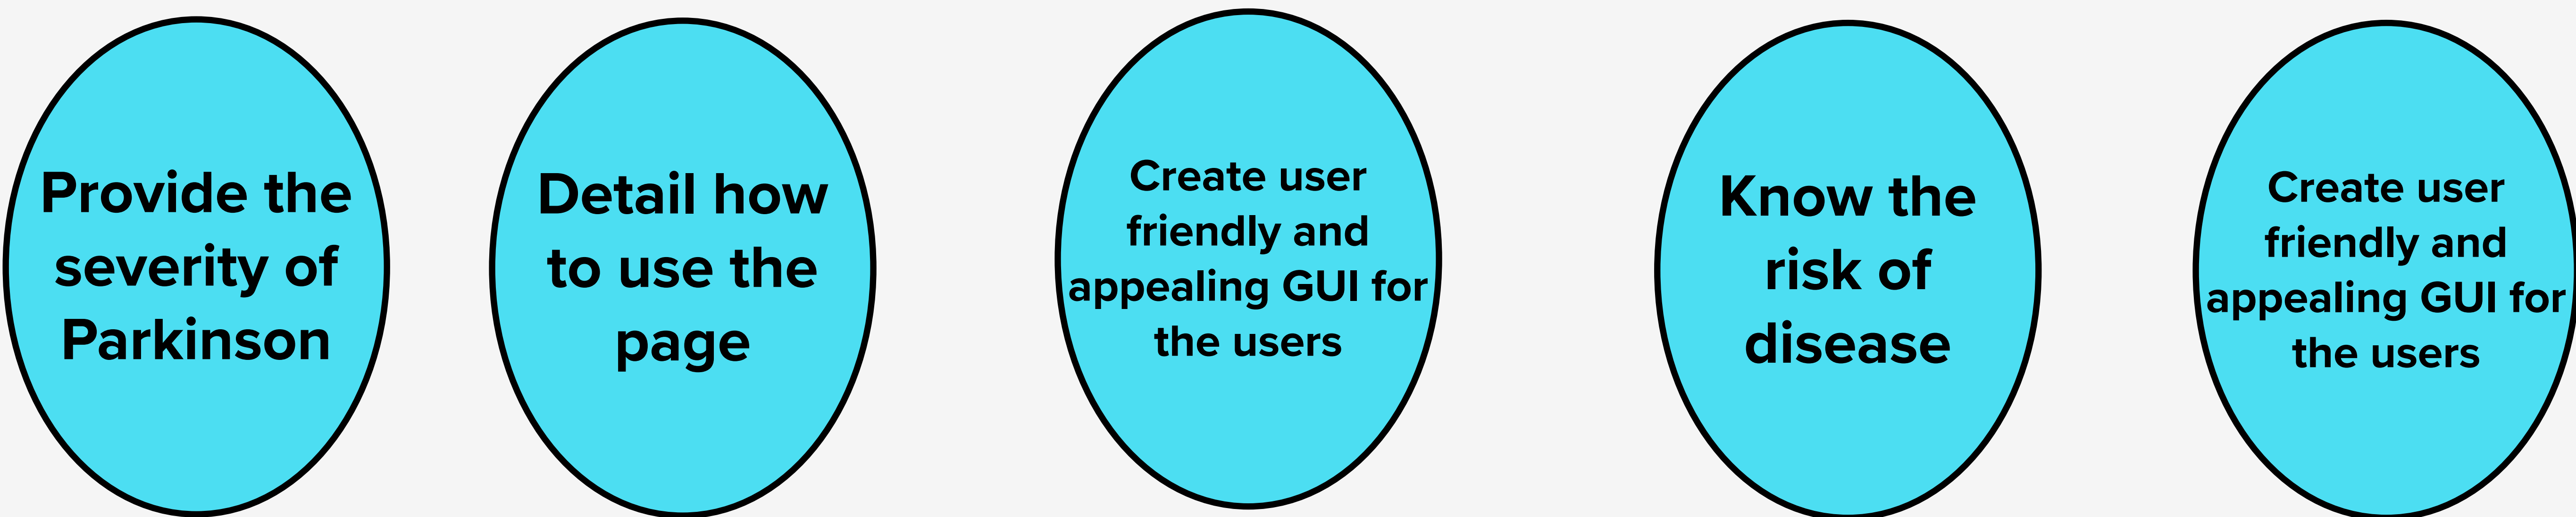

IDENTIFICATION OF CONDITION

APPROACH TO ARRIVE AT SOLUTION

USER REQUIREMENTS

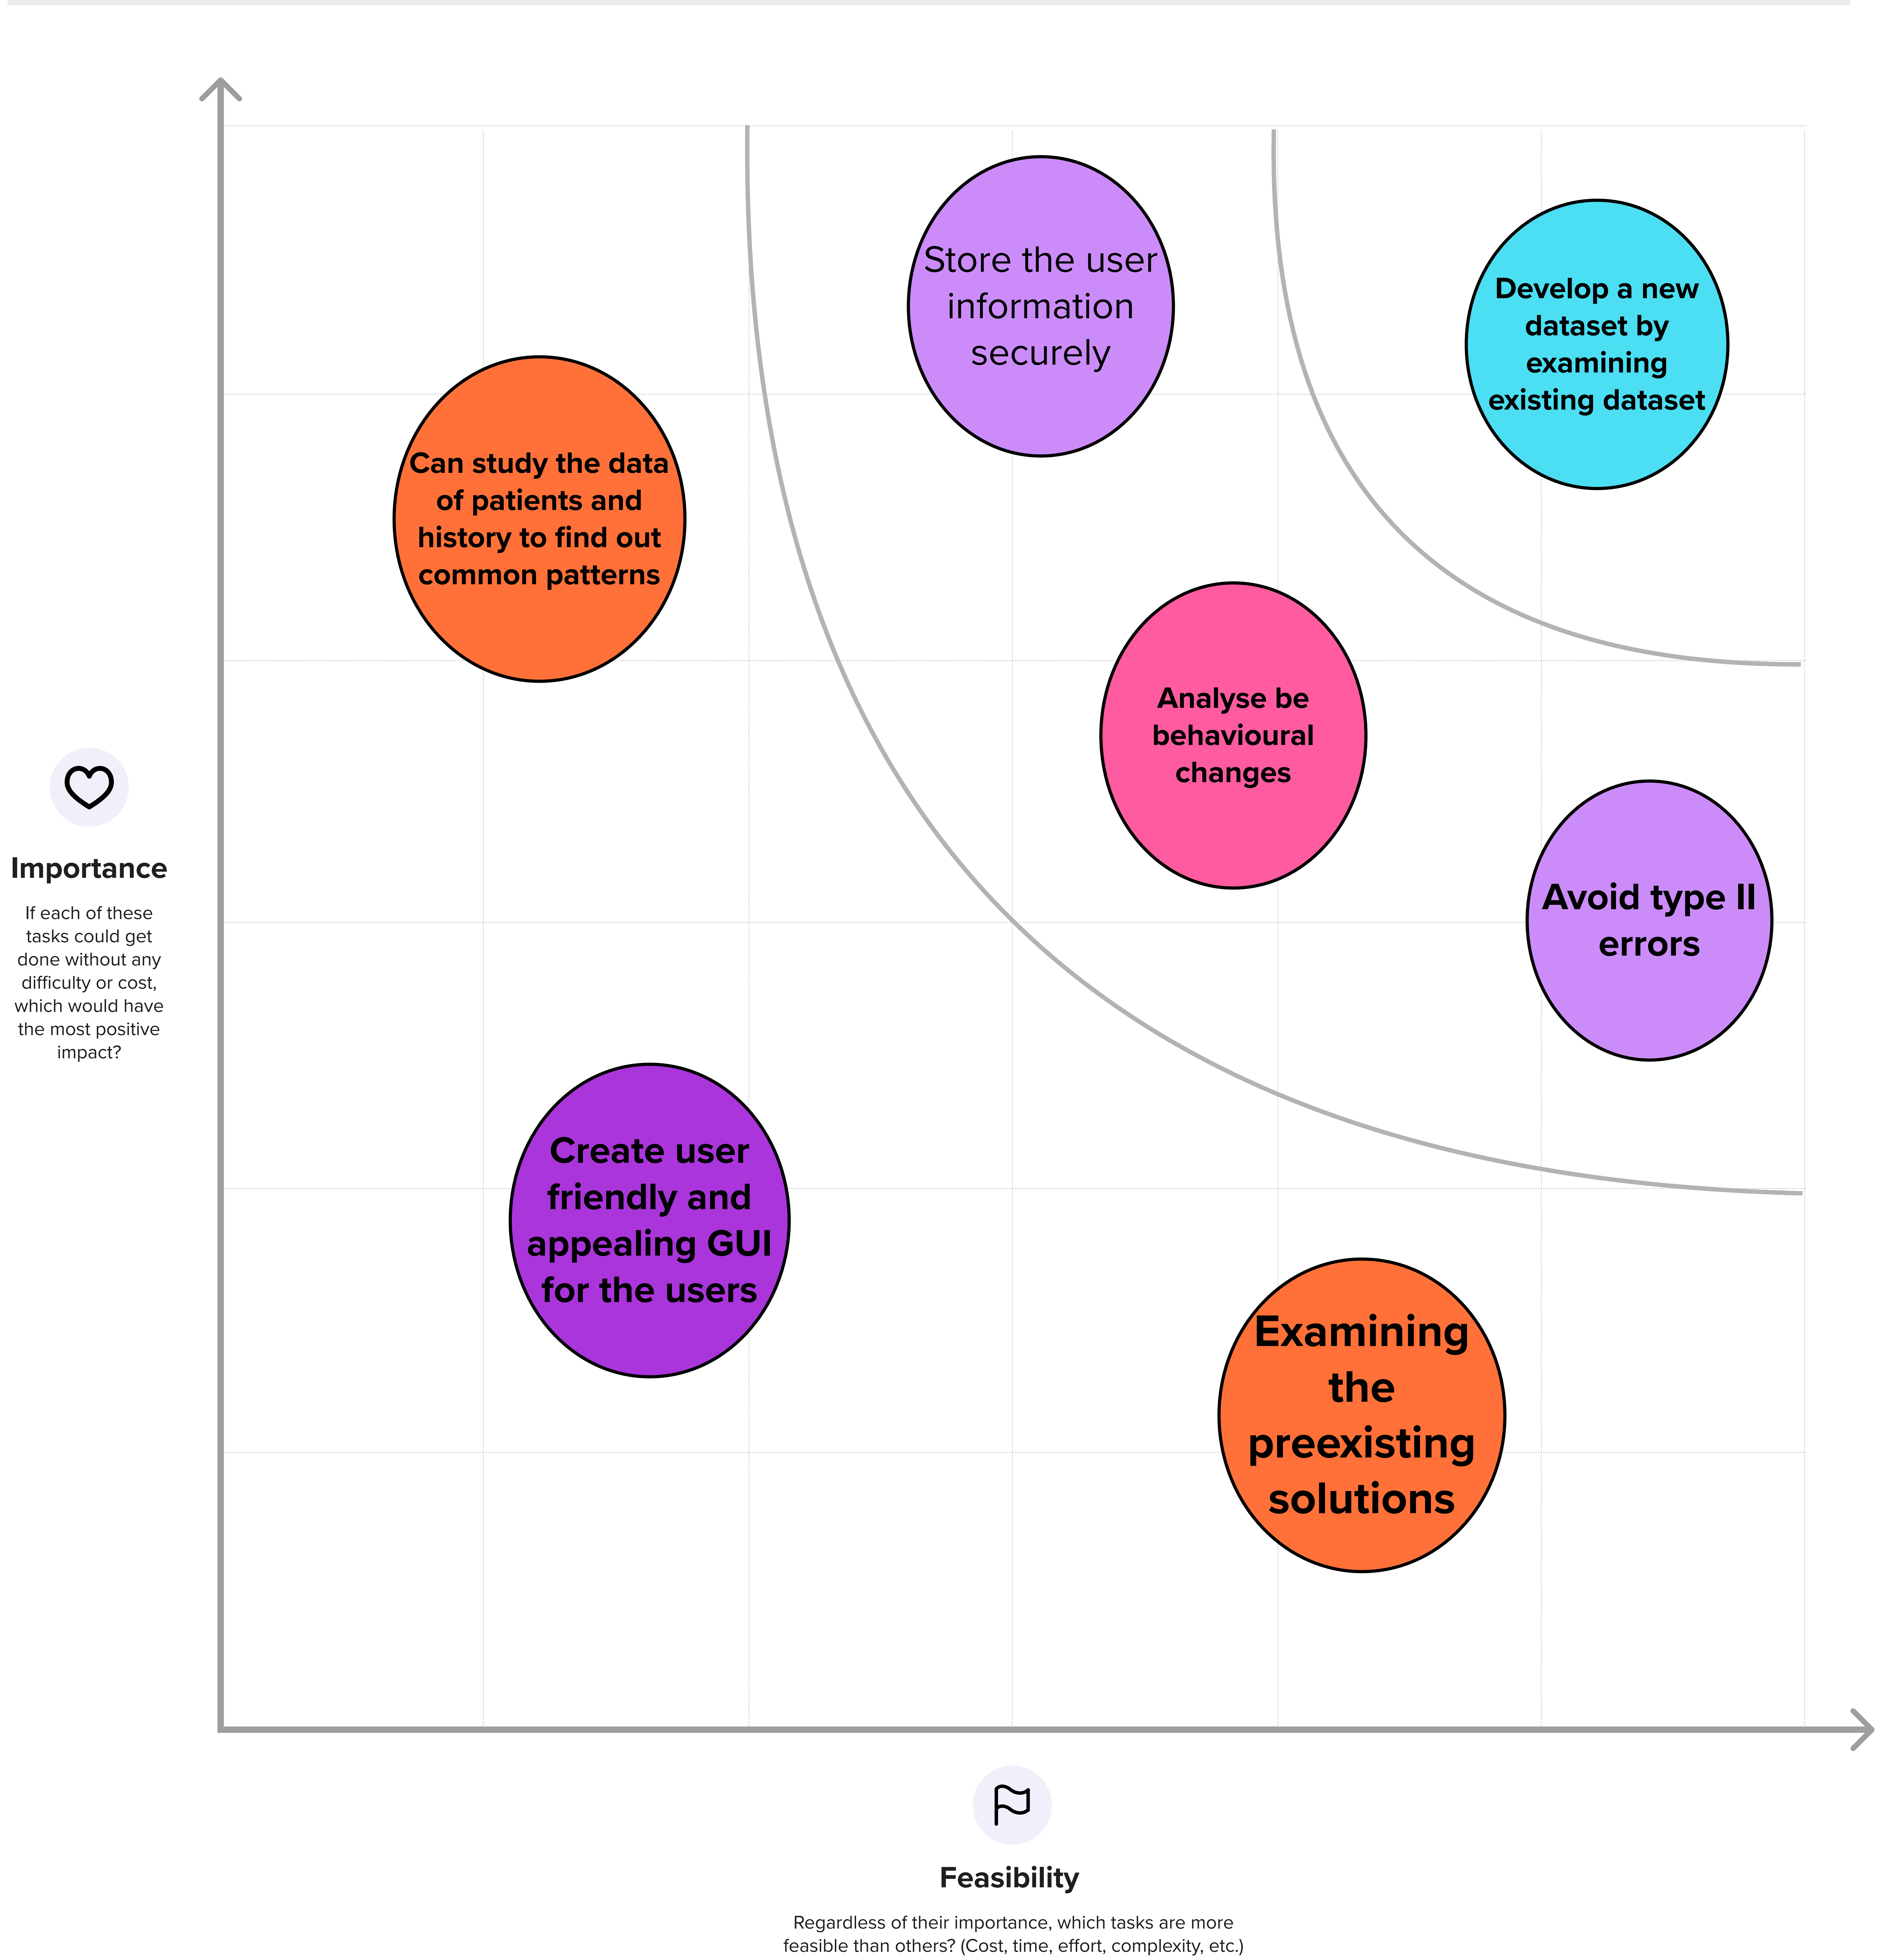

IMPORTANT NEEDS TO ACHIEVE

Prioritize

Your team should all be on the same page about what's important moving forward. Place your ideas on this grid to determine which ideas are important and which are feasible.

🕒 20 minutes

After you collaborate

You can export the mural as an image or pdf to share with members of your company who might find it helpful.

Quick add-ons

- A

Share the mural
Share a view link to the mural with stakeholders to keep them in the loop about the outcomes of the session.
- B

Export the mural
Export a copy of the mural as a PNG or PDF to attach to emails, include in slides, or save in your drive.

Keep moving forward

- Strategy blueprint**
Define the components of a new idea or strategy.
